- A current Federal Government employee, selected for a detail, will be assigned to the position at his or her current grade and salary.

Component Mission

The mission of the National Counterintelligence & Security Center is to lead and support the U.S. Government's counterintelligence (CI) and security activities critical to protecting our nation; provide CI outreach to U.S. private sector entities at risk of foreign intelligence penetration; and issue public warnings regarding intelligence threats to the U.S.

Major Duties and Responsibilities (MDRs)

- Plan and conduct the review and evaluation of security and counterintelligence standards concerning wireless technologies in SCIF spaces, SCIF construction standards, and IT and SCIF accreditation standards such as ICD 503 and ICD 705. Develop technical Information Assurance (IA), Counterintelligence (CI), and mitigation and countermeasures standards for wireless technologies supporting pending wireless technology directives.
- Advocate across the IC's R&D community for investments in technologies that can be used to defend IC secure spaces from new and emerging technology threats, such as Internet of Things and automated building controls, and mitigations such as Radio Frequency (RF) shielding countermeasures, and continuous spectrum monitoring capabilities.
- • Represent CSE as SME in technical forums, conferences, and working groups across the DoD and IC for SCIF construction and accreditation policy and practices.
- Represent CSE as SME in technical forums, conferences, and working groups across the DoD and IC for close access modernization initiatives for TSCM and TEMPEST disciplines in support of Technical Signals Security Countermeasures (TSSC) activities.
- Lead, plan, direct and coordinate the review of wireless waiver packages on behalf of the WSC co-lead with the WSC Technical Working Group. Leverage expertise to mentor both within and outside of CSE on the larger IC enterprise on wireless technology and initiatives,
- • Cultivate, and maintain working relationships with colleagues, experts, IC members, policy committees, and law enforcement as appropriate and use these relationships to advance the technical health of CSE, for wireless threats and countermeasures, close access threats and countermeasures.
- Plan and conduct meetings with senior ODNI leaders to provide advice, guidance, and structured recommendations on matters relating to security policies, standards, and procedures.

Mandatory and Educational Requirements

- Extensive knowledge of IC policies and standards for SCIF's, wireless policies and standards, and close access standards and practices. Working knowledge of Computer Network Defense (CND) practices across the IC.
- • Working knowledge of Information Assurance, security, and counterintelligence practices as applied in the IC.
- Demonstrated ability to oversee and direct information sharing programs and promote information sharing practices across IC organizations responsible for SCIF accreditation, CND, TEMPEST and TSCM mission, and countermeasures R&D.
- Demonstrated ability to think critically, ask the so what question, and think strategically about managing the CI threat posed by untethered technologies
- Demonstrated interpersonal, organizational, and problem-solving skills, in working with individuals at the highest levels of the IC and government in justifying, defending, negotiating, and resolving significant and controversial issues such as risk with wireless technologies in secure spaces, and deep changes in close access training, R&D, mission integration, and overall modernization.

Desired Requirements

- Experience - 10 years of work experience in areas such as technology vulnerability assessments, IA countermeasures, close access mission (TSCM and TEMPEST), SCIF accreditation practices, defensive RF, offensive technical exploit, IC/DoD policy, CND
